

Peggy Delgado Fava

Nevada County Board of Education Trustee Area 1

I believe school Board members need to be responsive to the needs of its constituents.

I believe the school board should help working parents and essential workers with finding a safe return back to school.

I want to bring my expertise in my work with marginalized and at-risk youth from Sacramento to my own neighborhood... here in Nevada County, which is in need of a fresh new direction.

You have an opportunity to put real life experiences with a track record of success. I support and will fight for safe schools, student & family support, accountability and parental choice.
