

## Ashley Neumann

Nevada County Board of Education Trustee Area 2

During my first term, I kept my promise to be an independent voice for local families. I'm the only board member to serve a full term, the only minority, only one with school-aged children and the only board member to vote independently. Each board member takes an oath to our Constitution which is based on checks and balances. Healthy boards do not vote unanimously on every action item. If a board just rubber stamps what comes from Sacramento, what is the point of having that board? I support utilizing local control to best serve Nevada county students, families and teachers!
